

Hello I am Ms. Katie Zubi the Pre-K teacher here at St. Mary's Child Development Center! I am very excited and honored to be the Pre-Kindergarten teacher. I find that teaching is a growth and learning experience for both the student and the teacher.

I received my Associates degree at Oakland Community College in General Education in May of 2016 and I am currently pursuing a Bachelor's degree in Elementary Education Oakland University and hoping to graduate very soon. I have worked in the Infant I room and I was also the School Age Teacher here at St. Mary's as well! I have a lot of experience teaching in a variety of areas in Early Childhood, but I really love teaching the ages between 3 and 5. I have also taught Montessori for toddlers and ages 3-6 in Rochester, Michigan.

I have worked with children in childcare for 7 years, 6 of those years have been lead positions. My favorite part of teaching and working with children is seeing their progression and watching them grow and develop as a child. I absolutely love what I do, children teach us just as much, if not more, than we teach them.

My philosophy on teaching and working with children is to help guide, teach and allow them to figure out who they are as the little beings they start becoming. I get just as excited as they do when they start to figure out their environment and learn through lessons and others.

As for me, I am a mom to an energetic, fun and spunky 3 year-old daughter Saraa. We love going to the park, riding bikes on the Paint Creek Trail and camping during the summer! She keeps me on my toes and allows me to bring the inner child I have inside me out. Parenting and teaching go hand in hand and I have learned so much through both experiences.

I really look forward to getting to know all of you and your wonderful children!

Ms. Katie Zubi
Pre-Kindergarten Teacher
